

## DETERMINATION OF NONSIGNIFICANCE

**Description of proposal:** Refer to FPA 2413303. This proposal consists of 79 acres, plus one acre of right-of-way for new road construction, for a total of 80 acres of harvest in one forest management unit (FMU). This FMU is in the Lilliwaup WAU within the Hood Canal State Forest in Mason County. The unit has a combination of gentle, rolling topography along with some steeper slopes of up to 80%. The elevation ranges from a low of approximately 1620 feet on the south slope, to approximately 2220 feet at the ridge top. There will be a combination of ground based and cable logging in this unit, with ground based logging occurring on areas where the slopes are less than 35%. It is estimated that about 50% of the sale will be ground based, and 50% of the sale will be cable logged.

This sale has 4339 feet of required roads that will be constructed and 2543 feet of optional roads that may be constructed. There are also 341 feet of required reconstruction and 3271 feet of pre-haul maintenance required on the 1540 road. Rock for this proposal may be obtained from any commercial source or from the existing 1710 and Saddle Mountain Rock Pits on state land.

**Proponent:**

Department of Natural Resources  
950 Farman Ave N  
Enumclaw, WA 98022

**Location of proposal, including street address, if any:** Section 14, 26, 27 and 34, Township 23 North, Range 4 West, W.M.

**Lead agency:** Department of Natural Resources, Forest Practices

The lead agency for this proposal has determined that it does not have a probable significant adverse impact on the environment. An environmental impact statement (EIS) is not required under RCW 43.21c.030(2)(c). This decision was made after review of a completed environmental checklist and other information on file with the lead agency. This information is available to the public on request.
